Innovative Curtain - Shaped LED Display

LED display C1 series is a media facade LED screen with high transmittance. Designed to make architecture more cutting-edge and attractive, the C1 series is integrated with the feature of the LED curtain. With high brightness and great transparency, this display tends to be used as over-dimensional, animated, illuminated advertising LED screens. It has been widely applied in the places like Times Square, Las Vegas and Hong Kong. The pixel pitches are P10.4, P12.5, P15.6, P25, P31.2.

Slim and Brilliant Structure

The structural design is very compact. It is very efficient and fast to maintain the cabinet from the front and the back. This LED display is frameless and slim, so it is much lighter than other LED screens. This feature will bring more convenience to maintenance and transportation.

Waterproof & Dustproof

To make LED display C1 series adjust different environments, we enhance the resistance of screen to dust and water. The protective grade has reached IP65.

Excellent Heat Dissipation

The LED strip casing is aluminum material and the cabinet is wind-pass design. Because of its good feature, the LED screen can function very well without the fan and AC.

Vivid Visual Performance

This display is very decorative on the strength of its curtain shape and 60% transparency. After thousands of tests and improvement, the screen has reached the ideal value of each visual performance.

High Brightness

This curtain media facade can reach more than 7,000nits.

Ultimate Refresh Rate

The outdoor LED billboard is full color and its refresh rate can reach 3840Hz.

Best Gray Scale

The gray scale of this DOOH screen can reach 16bits.

Application Fields

To fit every different scene, our product is made up of superior quality materials with the concise and strong structure. This product is usually used in:

- Billboards;
- Chain Stores;
- Central Business Districts.
